Our mandate

The Co-operation Agreement: 2021

A Greener Wales to Tackle Climate Change and the Nature Emergency

‘Commission independent advice to examine potential pathways to net zero by 2035 – the current target date is 2050. This will look at the impact on society and sectors of our economy and how any adverse effects may be mitigated, including how the costs and benefits are shared fairly.’

Well-being of Future Generations Act (Wales) 2015

<https://www.futuregenerations.wales/about-us/future-generations-act/>

LONG-TERM - The importance of balancing short term needs with the need to safeguard the ability to meet long term needs, especially where things done to meet short term needs may have detrimental long term effect.

PREVENTION - how deploying resources to prevent problems occurring or getting worse may contribute to meeting the body's well-being objectives, or another body's objectives.

INTEGRATION -the need to take an integrated approach, by considering how the body's well-being objectives may impact upon each of the well-being goals, on their other objectives, or on the objectives of other public bodies.

COLLABORATION - how acting in collaboration with any other person (or how different parts of the body acting together) could assist the body to meet its well-being objectives, or assist another body to meet its objectives.

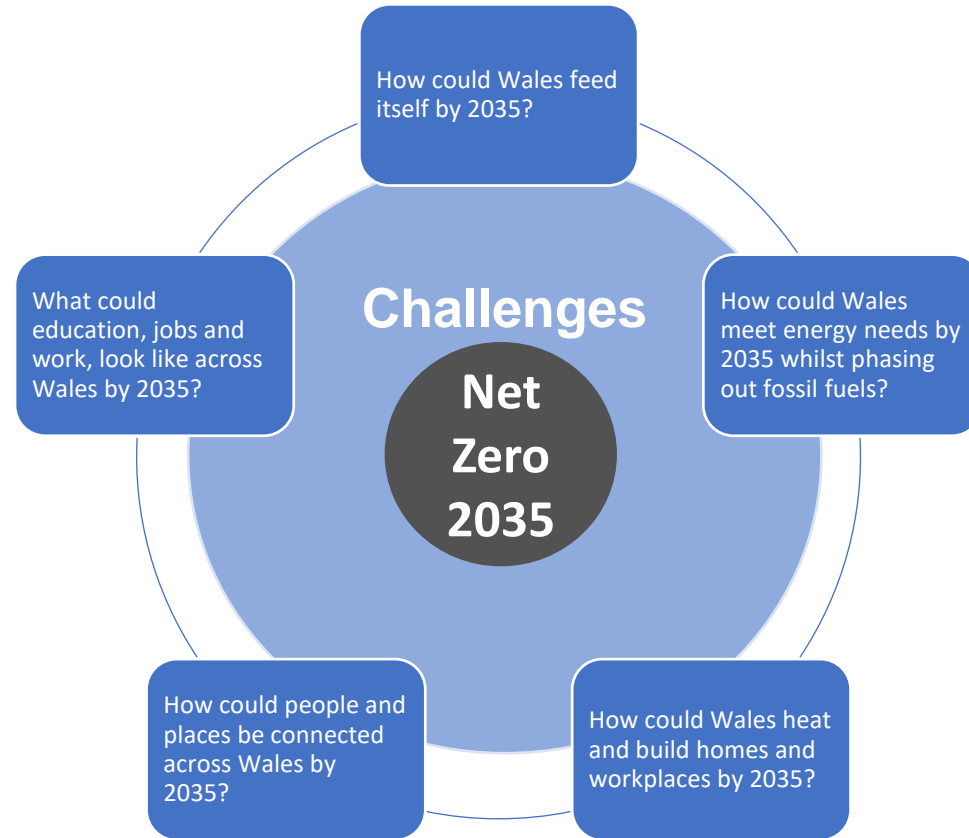

INVOLVEMENT - the importance of involving other persons with an interest in achieving the wellbeing goals and of ensuring those persons reflect the diversity of the area which the body serves.
